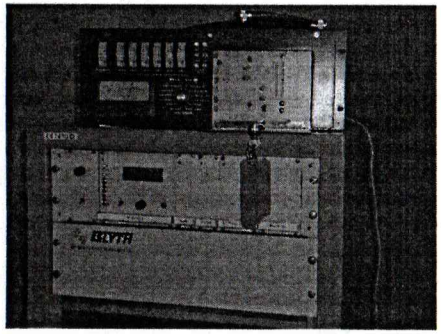
RADIO MERKURS, RIGA, LATVIA
Bengt Ericson

During a trip to Latvia I was invited by Mr. Raimonds Kreicbergs to visit Radio Merkurs, 1485 kHz, and interview him. He operates Radio Merkurs from studios in central Riga. His wife is the MD of the station, RNI Radio. The station is on the air 24 hours and operates with a power of 1 plus kW. Mr. Lars Skoglund, member of the Arctic Radio Club, joined us as he was visiting Riga at the same time.
He later left for a visit to Capital FM having office in the same building,

Raimonds Kreicbergs



The Blyth transmitter from New Zealand

Mr. Kreicbergs started in 2004 with Radio Nord broadcasting on 945 kHz when he used the transmitter at Ulbroka belonging to Latvijas Radio. This transmitter was demolished in 2008. He also used shortwave 9290 kHz with a power of 100 kW. When starting Radio Merkurs, he
moved into a new studio in the city centre, Nometnu iela 62, using an old 120 m high not used TV tower from 1957 for the 90 m dipole-wire antenna, but with poor ground. The reception was not very good in the outskirts of Riga and he received complaints from the neighbours for disturbances.

Early 2011 he got the possibility to use land leased by Imanta Radio Amateur Club in Riga. It was an old Russian submarine communication centre for the Baltic Sea that has been abandoned when the Russian military withdraw in 1994. The location, Daugavgriva/Bolderaja, is 10 km southwest center of Riga in a marshland area very near to the Baltic Sea.

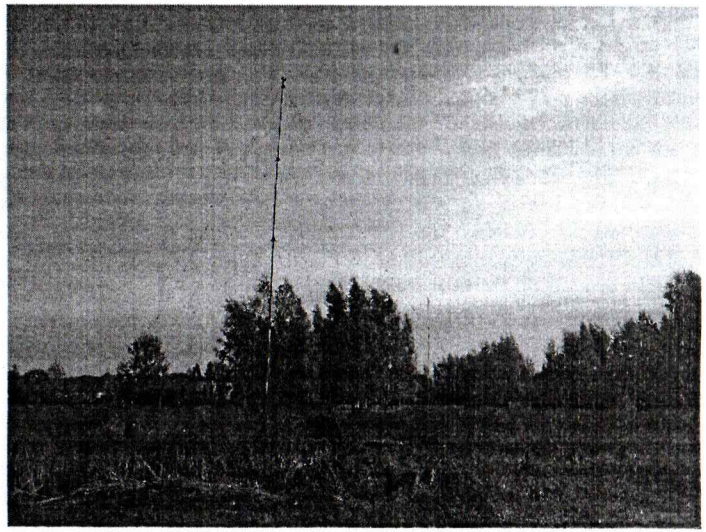
The Russians left lot of material that has been used by Raimonds and his amateur colleagues to dig large areas with copperwire to obtain an excellent ground for the antenna. The design of the new antenna is of T-type approx. 100 m long installed between two 30 m high masts. Pattern north-north west/south-south east.

Later during the day Mr. Kreicbergs invited me to visit the new installation at Daugavgriva and a better place to have a mediumwave antenna is impossible to find. Perhaps the studios will be moved to Daugavgriva in the future. Today the signal is carried by Internet to Daugavgriva transmitter.

Radio Merkurs is financed on a shoestring. Hard work by Mr.Kreicbergs and some sponsors plus selling airtime to different organizations and political parties. There are several programs organized by private persons, i.e. Ronny B. Good show, that is broadcast every Wednesday at 20:00 local time.

. Ronny Forslund is playing music from the 50's, 60´s and 70´s telling a lot of the background of the records and the artists. It is a very popular program in Riga even if Ronny speaks Swedish mostly, as Sweden and Swedish is still popular from the Russian era when the Latvians listened to Radio Sweden. On Sunday evenings there is a Jewish program produced in Jerusalem and broadcast for the Jewish community in Latvia. Saturday at noon local time is Evergreen-time. Rebroadcast at 20:00 on Tuesday.

The audience is mostly 50+, but a number of younger listeners under 18 is improving. One day my wife and I made a tour by car in northeastern and eastern Latvia. Radio Merkurs has an excellent signal on the car-radio all day. No disturbances from DRM Berlin or the Polish AM Radio stations on the same frequency



The transmitter site at Daugavgriva

Mr. Kreicbergs is interested in reports including a sound file of the reception. Due to the economy he will only answer by e-QSL. The mail address is: RNI@apollo.lv.

The Arctic Radio Club wishes Radio Merkurs Good Luck!

Radio Merkurs 1485 Riga, Latvia (Världsmusik)

GUIDE TO DX PROGRAMMES - NOTES

All times in UTC / GMT
v = variable frequency or time.
BBC WS Click and Over to You are available via online UK stream at the times listed above.
Times may vary on the BBCWS regional shortwave streams.
DXing with Cumbre is listed above as per the World Harvest Radio schedule. In practice the programme is seldom carried on shortwave. It is however usually heard online at these times via the appropriate WHRI web stream (marked 1-6 above).
WRMI Radio Miami International Additional airings of DX programmes may be available via Radio Miami International on 9955 kHz see station web site for schedule - www.wrmi.net
NB Programmes are listed to all target areas, so reception of individual broadcasts will depend on where you live.

Amendments to this list are always welcome.
Please e-mail bdxc@bdxc.org.uk
